EXPERIENCE

Senior AI Developer & Full Stack Engineer

July 2024 - Oct 2026

Threshing Floor Group, Hyderabad

[tfgroup.ai](#)

- Delivered backend infrastructure with 286 endpoints, 61+ database models, and 30+ Alembic/Prisma schema migrations across multiple production products.
- Shipped 80+ mobile screens and 96+ web interfaces using Flutter, React, and Next.js on FastAPI backends.
- Owned App Store / Play Store releases and deployment pipelines for 4+ Flutter apps (Employee Portal, HRMS, LMS, Care Navigator).
- Designed PostgreSQL/Supabase data layers with Row-Level Security, Redis rate limiting, Celery webhook workers, and dual-store WebSocket sync.
- Integrated ML pipelines (OCR, embeddings) and third-party provider APIs into production FastAPI services.
- Converted ambiguous requirements into shippable milestones as technical consultant to executive stakeholders; led knowledge transfer for 8 engineers.

SKILLS

Languages	Python, Dart, JavaScript, TypeScript, C++
Backend	FastAPI, Flask, Express, Celery, SQLAlchemy, Alembic, Prisma
Frontend & Mobile	Flutter, React, Next.js, Tailwind CSS, MUI
Databases	PostgreSQL, MySQL, MongoDB, Redis, Firestore, Supabase
Architecture	REST APIs, RBAC, JWT, Rate Limiting, Caching, WebSockets, Webhooks, Row-Level Security
AI/ML & OCR	ONNX Runtime, PaddleOCR, PyTesseract, Sentence Transformers, Embeddings, Model Gateway Services
DevOps & Tooling	Docker, AWS EC2, nginx, systemd, Git

PROJECTS

IYOV AI – AI-Powered Workforce Management Ecosystem

[iyov.ai](#)

Tech: Python, FastAPI, Flutter, Riverpod, GoRouter, Next.js, PostgreSQL, Redis, Firebase

- Built the India tax and compliance payroll module from scratch, automating complex statutory rules into payroll formulas.
- Automated payroll batches, document processing, and bulk worker notifications with Redis-backed job queues.
- Released 4+ companion Flutter apps (Employee Portal, HRMS, LMS, Care Navigator) to App Store / Play Store.
- Unified mobile build configurations and automated pipelines, shortening turnaround for critical hotfixes.

TFG SecureBank – Digital Fintech Application

[tfgsecurebank.com](#)

Tech: Python, FastAPI, SQLAlchemy, Alembic, PostgreSQL, Redis, WeasyPrint

- Architected a multi-tenant FastAPI backend with 70 REST endpoints, routing between PostgreSQL/Supabase and legacy MySQL.
- Created a rules engine with openpyxl and xlcalculator that executes credit validation matrices directly from Excel templates.
- Generated tamper-evident loan agreement PDFs with WeasyPrint and Jinja2 templates.

TFGenAPI – Verification & Custom API Platform

tfgenapi.ai

Tech: Next.js 16, Python, FastAPI, MongoDB, PyTesseract, Sentence Transformers

- Built the verification API platform end to end, owning database design and cross-layer integration.
- Implemented an AI inference pipeline: PyTesseract OCR plus Sentence Transformers embeddings for document matching.
- Configured a MongoDB (Motor) layer for high-throughput unstructured document ingestion and ML feature persistence.
- Added Celery/Redis task queues for asynchronous verification flows and webhook notifications.

Medical Advisor – Mission-Critical Healthcare API

[Play Store](#)

Tech: Python, FastAPI, PostgreSQL, Redis, Firebase/GCP, Docker

- Architected a FastAPI microservice secured with strict JWT authentication and Google Play Integrity nonces.
- Designed an asynchronous dual-write pipeline syncing PostgreSQL transaction state to Firestore for real-time WebSockets.
- Trained and onboarded 8 engineers as technical lead for knowledge transfer.

Additional Projects: **DealsMart** (Flutter, FastAPI, PostgreSQL, RQ workers; ACID cart mutations, idempotent payment reconciliation; pre-release); **TFG Corporate Website** (Next.js, Flask; zero-downtime migration from legacy static site); **GroConnect** (PHP, Node.js; client portal and AI training platform).

EDUCATION

Bachelor of Technology in Information Technology

2020–2024

Vignana Bharathi Institute of Technology (VBIT), Ghatkesar

CERTIFICATIONS

- **AWS Academy:** Cloud Foundations; Machine Learning Foundations; AI-ML Virtual Internship
- **Cisco:** Networking Essentials; Introduction to Cybersecurity; Cybersecurity Essentials
- **Fortinet:** Certified Fundamentals; Certified Associate in Cybersecurity; Network Security Associate Virtual Internship
- **Celonis:** Foundations; Academic Process Mining Fundamentals; Execution Management Consulting Program
